

# HOW TO PLAY

1. On opening the game, the player will be greeted with the screen below.

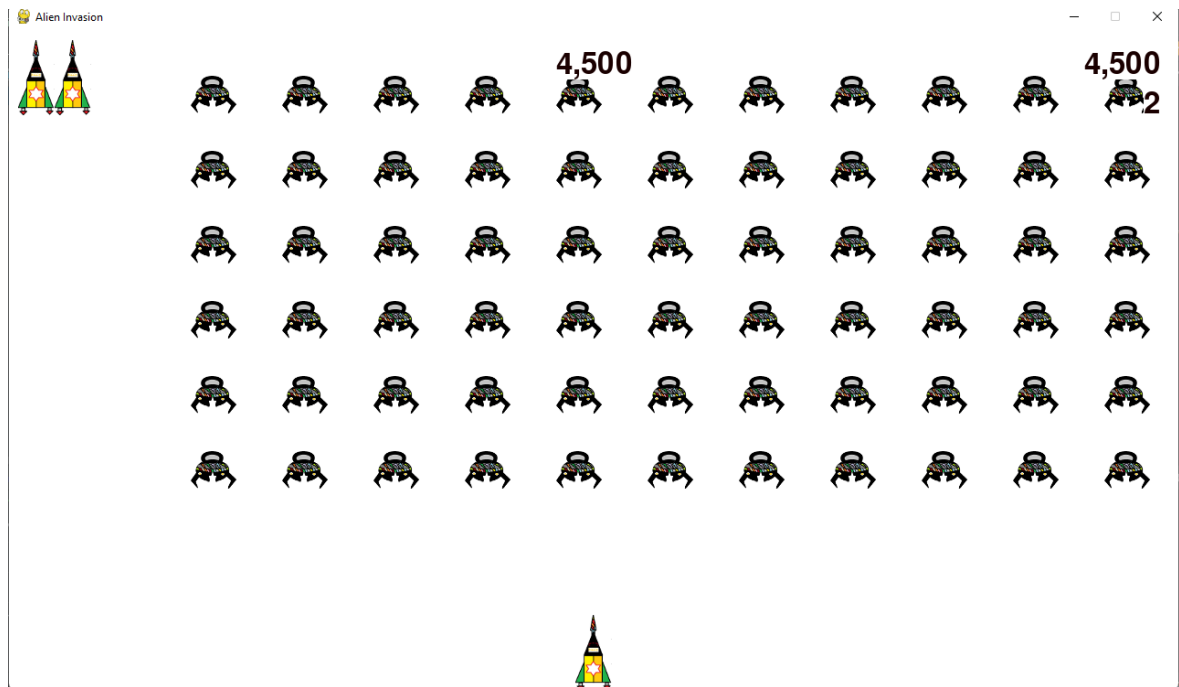

*Figure 1 The opening screen of the game*

- In the top middle section of the screen is the games highest score.

- On the top left corner of the screen is the amount of ships that the player has left. The game begins with giving the player three ships to use
- On the top right corner is the current games' score
- On the bottom of the current games score is the current level of the game. The level increases by one every time the player finishes off all the aliens on the screen.

2. As the game begins, the fleet of aliens starts coming down to the bottom of the screen attacking the players ship.

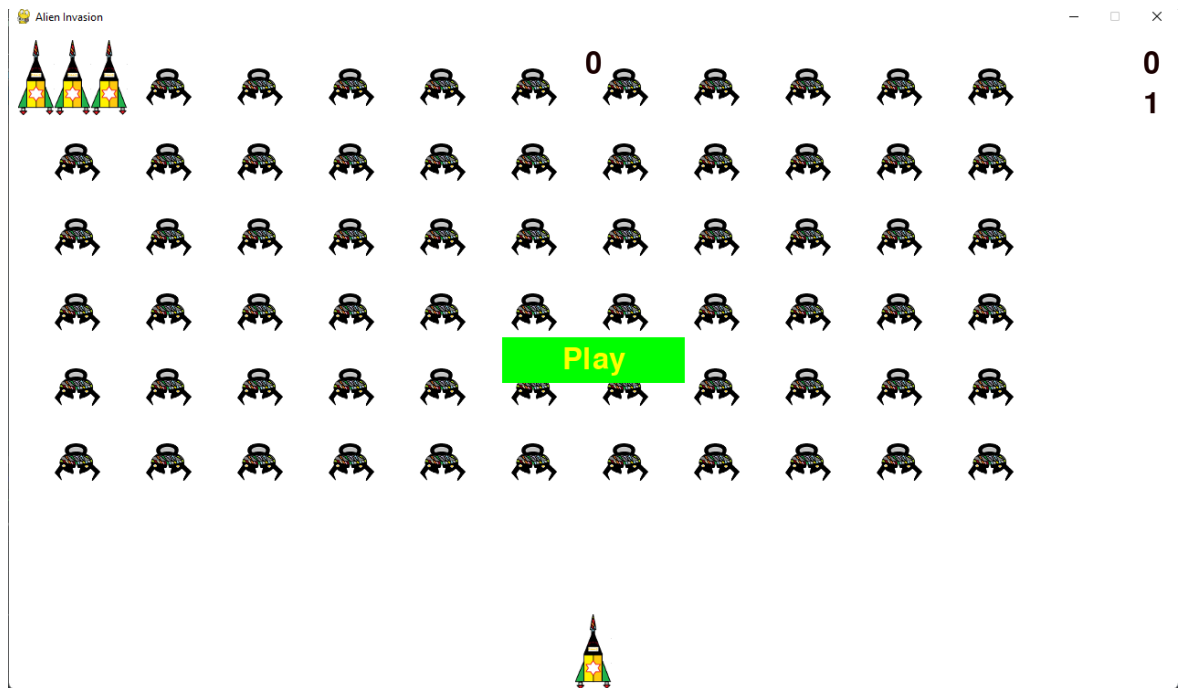

*Figure 2 The game in progress*

3. The player moves the ship to the right and left by using the right and left keys respectively.

*Figure 3 The player shooting at the aliens*

4. The player then shoots the aliens down by pressing the spacebar.

*Figure 4 The game when it resets after the player has used up all the ships*

5. Once the player has depleted all the ships, they can use the game resets the level, score and gives the player another three ships to try again.
6. Every time the player clears out one level the fleet begins to move faster, the ship can move faster on the screen, the bullets travel faster and the player gains bonus points every time they hit an alien in the fleet making for a faster and more adrenaline filled experience on every level.

ENJOY THE GAME
